

The Renal Network, Inc.

ESRD Networks 4, 9 & 10

Welcome to the ESRD Network 4 Website

<http://www.esrdnetwork4.org>

ESRD Network 4 has a website to serve as a resource for patients, the general public and renal professionals.

- Look in the Events and Updates page for upcoming Network meetings, important safety notices and FDA alerts.
- Check out our Annual Reports, Goals, our Newsletter called “Network News”, and the Network’s Grievance Policy.
- The National Vascular Access Improvement Initiative (Fistula First) has its own page with loads of links, working documents and references.
- Want to know how many patients are in a particular county in the Network? Check out the *Patient Population Report* found in the Data Services page.
- We also have a link to The Forum of ESRD Networks that provides access to the webs from the other Networks across the country.
- On the Patient Services page, there are links to the Pennsylvania and Delaware Office of Vocational Rehabilitation (OVR) web sites, search engines for dialysis facilities anywhere in the country, a guide for caring for your access, and links to Medicare.
- Links to a number of renal professional organizations and publications, Dialysis Facility Compare, and disaster preparedness manuals can also be found on our site.

We invite you to access the Network 4 website to learn more about us and our services.

Your comments and suggestions for our website are always welcome. Submit your ideas and concerns to:
